## A Vision of Priesthood for the Church of England

Conference – 4-6 September 2012

The 20th anniversary of the ordination of women to the priesthood provides us with an ideal opportunity to think more deeply and constructively about the nature of priesthood in the Church of England, which is not simply a recipient of the ecclesiology of others, but also has significant insights to offer.

We also believe it is important to re-envisage priesthood as not only for the church but also for the world. Therefore we hope this conference will provide a long overdue opportunity to offer a renewed articulation of the vision of priesthood that is not captive to recent ecclesial controversies and that takes into account the challenges of the present moment in our world.
